Inflammatory Bowel Disease October 31st, 2016
Dr. Goo Lee, M.D., Ph.D., FACP
Goals and Objectives

Lecture participants should:

**Medical Expert:**
- Acquire knowledge pertaining to the epidemiology and clinical aspects of inflammatory bowel disease
- Acquire knowledge pertaining to initial pathologic diagnosis of inflammatory bowel disease
- Acquire knowledge of interpretation of biopsy of inflammatory bowel disease on follow-up (e.g., remission, flare, treatment effects).
- Acquire knowledge regarding indeterminate colitis.
- Acquire knowledge in interpretation of bowel resection specimens
- Acquire knowledge in formulating a differential diagnosis in the interpretation of different types of colitis.
- Acquire knowledge of biopsy interpretation of post-op bowel problems in inflammatory bowel disease.
- Acquire knowledge of inflammatory bowel disease-associated neoplasia.

**Communicator:**
- Acquire knowledge on the importance of gathering clinical information pertaining to inflammatory bowel disease.
- Acquire knowledge in communication between clinicians and pathologist.
- Acquire knowledge on how to formulate clear, concise and complete pathologic reports pertaining to inflammatory bowel disease.

**Collaborator:**
- Acquire knowledge of the roles of various team members in the diagnosis and treatment of inflammatory bowel disease (e.g., family physicians, surgeons, gastroenterologists).
- Acquire knowledge on the role of intra and interdepartmental consultations in the pathologic diagnosis of inflammatory bowel disease.

**Manager:**
- Acquire knowledge of the importance of quality assurance and quality control measures for the diagnosis of inflammatory bowel disease including pre-analytical, analytical and post-analytical variables.
Health Advocate:
- Acquire knowledge on understanding the impact of a diagnosis of an inflammatory bowel disease.
- Acquire knowledge on the importance of educating patients regarding disease process, variety of treatment/drug review, including state-of-art biologic therapy

Professional:
- Acquire knowledge on interpretation of a pathology report in the diagnosis of inflammatory bowel disease.
- Acquire knowledge on when to appropriately consult an expert in gastrointestinal pathology

Scholar:
- Acquire knowledge on relevant sources of information (e.g., journals, textbooks, web-based resources) pertaining to inflammatory bowel disease.
- Acquire knowledge on relevant pathology organizations/meetings pertaining to inflammatory bowel disease.
- Acquire knowledge on possible research project ideas in the field of inflammatory bowel disease.
