Goals and Objectives for Endometrial Adenocarcinoma Lecture
July 14, 2014
Shahid Islam, MD, PhD, FRCPC

Lecture participants should:

Medical Expert:
- Acquire knowledge pertaining to the epidemiology of select endometrial carcinoma
- Acquire knowledge pertaining to risk factors for endometrial carcinoma
- Acquire knowledge regarding the gross dissection of endometrial carcinoma
- Acquire knowledge in the interpretation of endometrial carcinoma
- Acquire knowledge in formulating a differential diagnosis in the interpretation of endometrial carcinoma
- Acquire knowledge of the immunohistochemical and molecular testing of select endometrial carcinoma

Communicator:
- Acquire knowledge on the importance of gathering clinical information pertaining to endometrial carcinoma
- Acquire knowledge on how to formulate clear, concise and complete pathologic reports pertaining to endometrial carcinoma

Collaborator:
- Acquire knowledge on the role of intra and interdepartmental consultations in the pathologic diagnosis of endometrial carcinoma
- Acquire knowledge regarding the role of the pathologist in tumour board presentations for endometrial carcinoma

Manager:
- Acquire knowledge of the importance of quality assurance and quality control measures for the diagnosis of select endometrial carcinoma including pre-analytical, analytical and post-analytical variables
- Acquire knowledge on understanding the value of proficiency testing of immunohistochemistry used in the diagnosis of select endometrial carcinoma
Health Advocate:
- Acquire knowledge on understanding the impact of a diagnosis of an endometrial carcinoma on patients

Professional:
- Acquire knowledge on when to appropriately consult an expert in gynecological pathology
- Acquire knowledge on the limitations of intraoperative consultations in the diagnosis of endometrial carcinoma

Scholar:
- Acquire knowledge on relevant sources of information (journals, textbooks, web-based resources) for reviewing literature pertaining to endometrial carcinoma
- Acquire knowledge on possible research project ideas in the field of endometrial carcinoma
