The following media are available for use in web-based, teaching-learning to Canada’s academic community for qualified end-users of LEAP and associated Pallium Project licensed teaching-learning products. To test preview, copy the URL you wish to preview/link, paste it in your browser window and select enter. Effective January 2008 the Project has migrated it’s media to Google’s video hosting service and YouTube (where run time <10 minutes). Both use broadband, Flash-based delivery. The option for downloading at GoogleVideo has been enabled so end-users may download a high-quality, MP4 file suitable for use on Apple video iPod® or Apple QuickTime®/ MP4 compliant software.
